Allied Laboratory Animal Care Consulting Services

ABOUT US

Allied Laboratory Animal Care Consulting Services specializes in assisting institutions with the process of obtaining AAALAC Accreditation from the development of a highly organized Program Description through the Site Visit and Post Site Visit Communication. We can assist in SOP development and Program development (Occupational Health and Safety, Training, ect.) utilizing current industry Best Practices. We conduct third party program and facility reviews to evaluate for compliance with applicable regulations including Post Approval Monitoring and grant congruency. We assist with Risk Assessments and Disaster Planning. We can also serve on IACUCs and assist with IACUC and Investigator training.

"The submission was excellent. Cindy took what was a mediocre document and with the help of all of us made it into what it is- clear, concise, and thorough."

*Norman B Guilloud, DVM
Consulting and Attending Veterinarian*

OUR EXPERTISE / EXPERIENCE

We have over 25 years experience in developing AAALAC Program Descriptions and implementing animal care and use programs, our expertise provides our clients with friendly, quality consulting services in laboratory animal care. Additionally, our background is diverse and includes serving as a laboratory animal technician to serving as a manager of a laboratory animal facility for 25 years. We have also served as the regulatory/compliance person for an institution for 25 years and served as an IACUC Chair for 16 years. We regularly attend continuing education conferences and workshops to keep abreast of current industry Best Practices. Curriculum Vitae gladly furnished upon request.

OUR CLIENTS

Our clients include privately owned LLC medical device and biomedical contract research companies, publicly traded pharmaceutical companies, and universities. Client references available upon request.

AAALAC ACCREDITATION

We can direct you from the very onset of your Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC) International accreditation process by reviewing your current animal program and the formation of a well-written and highly organized Program Description. We also assist with the Site Visit preparation, the actual Site Visit, and with the Post Site Visit Communication. To date, we have had 100% success rate on obtaining AAALAC Full Accreditation status on the first attempt for every client.

BENEFITS OF OBTAINING AAALAC INTERNATIONAL ACCREDITATION*
